WHY WE ARE HERE

Lighthouse School is a beacon of hope and support for the special needs community in Cayman. The school is dedicated to providing quality education and life skills training to children and young adults with special needs.

Despite being a government funded school, they face the ongoing challenge of operating within a strict budget. To continue offering the level of care and education that their students deserve, they rely on the generosity and support of individuals like you.

Children with mobility issues are lacking wheelchair accessible desks and access to much needed physical therapy. Children who require alternative forms of communication do not have access to specialized devices. Teachers have no staff room to take their *only* 45 min break a day. Lighthouse also has a wait list that runs deep.

Imagine your child only qualifying for one school on island and they are unable to attend with the waitlist. Your contribution will be instrumental in creating a brighter future for the special needs community in Cayman.

Together, we can make a significant difference in the lives of those we serve at Lighthouse School.
