

Friday June 5th, 2026

Dear Families,

We are delighted to welcome Island Primary and Island Montessori to Inspired Education Group.

This letter accompanies the communication you have received from the school and serves as an introduction to Inspired ([Inspired Education](#)), outlining our shared vision for the future. We very much look forward to working closely with the school's leadership team and staff to support its continued success and to serve students, families, and the wider community.

Inspired, Island Primary and Island Montessori share a strong commitment to providing a high-quality, globally relevant education grounded in a nurturing and supportive environment. This partnership will further empower the school community to achieve its full potential; enabling students to develop outstanding academic capabilities alongside the confidence, creativity, and character needed to succeed in an increasingly interconnected world.

At Inspired, we believe that a truly exceptional education extends beyond the classroom. Our educational model is built on our three pillars of modern education: academic excellence, sports, and performing and creative arts. Through this balanced, holistic approach, students are encouraged to discover their individual talents, develop resilience and teamwork, and grow into well-rounded individuals with a lifelong love of learning.

In addition, students at Inspired schools benefit from a wide range of global opportunities, including international exchange programmes, collaborative projects with peers across our network, and summer and winter camps hosted at Inspired schools around the world. These experiences enable students to build independence, confidence, and cultural awareness, while forming lasting friendships and gaining invaluable global perspectives.

Inspired is one of the world's leading groups of premium schools, educating over 95,000 students across more than 125 schools on six continents. Our schools combine the best of British and international educational traditions with innovative teaching practices, creating a dynamic and forward-looking model of education. Across our global group, Inspired schools are recognised for their academic excellence, strong pastoral care, and outstanding co-curricular programmes. The early years programmes across Inspired and in particular in Italy, are award winning. In other countries and education programmes, we have found similar success. For example, ACG Parnell leads as the top school in Auckland, New Zealand; Reddam House Sydney is a leader in New South Wales, Australia; Colegio San Patricio in Spain is ranked the best school in the country, and St Louis School in Milan holds the highest five-year average IB scores in Continental Europe. Inspired schools consistently rank among the best globally, and we are excited for Island Primary and Island Montessori to join this esteemed family. Inspired is synonymous with

excellence, innovation, and groundbreaking achievements in holistic education.

Within the region, schools such as King's College, The Bahamas exemplify the strength of a British-based education adapted to a local environment; combining academic rigour with a strong sense of community, a focus on character development, and a broad range of opportunities in sport and the arts. This balanced approach reflects the same values that underpin Island Primary and Island Montessori, and we see great potential to further enhance these strengths through collaboration and shared expertise across the group.

Importantly, every Inspired school retains its own distinct identity and ethos including thriving connections such as your school has with CF School. Island Primary and Island Montessori will continue to be rooted in their local community, embracing the culture and spirit of the Cayman Islands, while benefiting from Inspired's global scale, experience, and shared best practices. This allows us to enhance what makes the schools unique while offering broader opportunities for both students and staff.

As part of the Inspired family, your school will also be able to collaborate with other Inspired schools globally, creating new opportunities for exchange, innovation, and professional development. This international network significantly enriches the educational experience while preserving the values and traditions that are central to each school.

We understand that you may have questions, and we will be pleased to address these. A Frequently Asked Questions document has been shared alongside this letter, and we will also invite you to attend an information session with members of the Inspired and school leadership teams, where you will be able to learn more about this exciting partnership.

Thank you for your continued trust and support. We look forward to embarking on this new chapter together and to supporting your children as they thrive and succeed.

Yours sincerely,

Nadim M. Nsouli
Founder, Chairman & CEO
Inspired Education Group

Frequently Asked Questions

1. What are the advantages of becoming part of Inspired?

Inspired is the leading global group of premium schools led by expert educators. They seek to support each school in reaching the greatest potential within its local community and to benefit from Inspired's global presence. To achieve this, Inspired works with school leaders to add value to their schools, whether through academic and extracurricular programs, innovative approaches to learning, global exposure to best practices, or the knowledge and skills of its educational leaders. Inspired also has the financial capacity to invest appropriately in facilities, infrastructure, resources, and programs to support the educational improvements required.

2. Will this partnership maintain the school's ethos and values?

There is already a close match between your school and Inspired. Inspired's aim is always to help each of its schools reach their maximum potential while retaining and enhancing their unique attributes. Island Primary and Island Montessori align with Inspired's holistic approach to education, which seeks excellence in academic achievement, performing arts, and sports, while also focusing on building character, developing self-confidence, building skills for the 21st century, fostering core values, and instilling social responsibility.

3. What is the school's strategic plan?

We want to build on the school's success to date and this includes maintaining thriving connections such as the one between Island Primary and Island Montessori and with CF School.

We will be conducting a strategic review of the school alongside school leadership to assess the strength of the curricula and ensure appropriate investment in the teaching and learning experience and, as necessary, the facilities. We are strongly committed to continuing the development of the facilities on the existing campus, as we have across our group, and to contributing our international expertise to enhance and grow campuses. The strategic plan would be to ensure that the school is the automatic choice for families seeking a world-leading education for their children. Communication with families is a key part of Inspired's strategy, ensuring families are kept up to date on key developments at every stage.

4. What changes can we expect as a school now that we are part of Inspired?

The day-to-day operations of the school will not change. Inspired's focus is on premium-quality education worldwide to ensure the best possible preparation for each child's global future. Inspired only works with successful schools and works to preserve their ethos while sharing global best practices.

5. Will the current school management continue to be involved?

The school's leadership and day-to-day operations are not changing. The school community will continue to benefit from our expertise, and Inspired has reaffirmed its confidence in our scholastic goals. So, in this way, the essence of the school remains unchanged, as we bring together the best qualities of your school and Inspired.

6. What support are the teachers going to get to help them develop?

Outstanding teaching is central to Inspired's vision. Inspired has extensive collaborative opportunities to develop global best practices in leadership, subject knowledge, and pedagogy. A thorough professional development and review process will evaluate teachers and invest in keeping them fully up to date with their subjects – both curriculum knowledge and teaching methodology.

7. What interactions would the school have with Inspired Schools?

With the overall aim of developing the students of today into responsible, active, internationally minded citizens and leaders of tomorrow, opportunities for collaboration (educational technology is particularly useful here) and exchanges between students and staff within the Inspired Group are created.

8. How will tuition fees be impacted? Does Inspired plan to increase them?

There will be no change in the school's approach to tuition fees. Future increases will be in line with inflation and local offerings. There are no planned increases at this time.

9. How will the inclusion of Island Montessori impact my sibling's registration?

Siblings will still continue to enjoy priority entry to both Island Primary or Island Montessori. Over the next two years we will be working to strategically position Island Montessori as the feeder school to Island Primary, however we recognize many families have registered in good faith who are not currently registered at Island Montessori, and we will work to honor those registrations which have already been completed.

10. Who owns Inspired?

Inspired is a leading premium global group of schools, led and controlled by its Founder, Nadim M. Nsouli, and backed by blue-chip global institutions that are minority partners. In contrast to other global education groups, Inspired focuses only on premium school education and invests for the long term, believing this is key to sustained quality and growth.

11. How many schools are part of the Inspired Family, and where are they located?

Inspired is the fastest-growing international Group of premium schools, with 95,000 students and over 125 schools on six continents. Please review the website at www.inspirededu.com for further information.

12. Will there be opportunities for networking/exchanges between students and staff across Inspired's schools?

Yes – this is one among many advantages of belonging to Inspired; these exchanges and networking opportunities provide schools, staff, and students with international contacts and perspectives.
